Explanatory Note for Table of Concordance RS2024 to Pre-RS2024

This Table of Concordance was compiled during the revision drafting process and the resulting data were used to prepare the Table as an unofficial guide for users of B.C. Statutes. While every effort was made to achieve accuracy, only the statutes are authoritative. Legal opinion should be sought if interpretation is required.

This Table was based on the table of contents for the RS2024 Act. The left column lists each section of that Act as a separate row. The right column of that row indicates the source provision of the pre-RS2024 Act, as that Act read at the time the revision was delivered for consideration by Select Standing Committee of the Legislative Assembly. A citation in that column that is in square brackets and set off by italics indicates that the RS2024 provision has no specific source section and was prepared under the authority of the *Statute Revision Act*.

If a pre-RS2024 section was revised into more than one RS2024 section, the right column will indicate this separation with “[pt]”.

See the “Table of Concordance Pre-RS2024 to RS2024” to this Act to identify a specific source section in the pre-RS2024 Act with its revised section in the RS2024 Act.
