

JOURNALS
OF THE
LEGISLATIVE ASSEMBLY
OF THE PROVINCE OF
BRITISH COLUMBIA
SECOND SESSION, 1936

Tuesday, October 27th, 1936.

THREE O'CLOCK P.M.

This being the first day of the fourth meeting of the Eighteenth Parliament or Legislative Assembly of the Province of British Columbia for the dispatch of business, pursuant to a Proclamation of the Honourable ERIC WERGE HAMBER, Lieutenant-Governor of the Province, dated the 23rd day of September, 1936,

His Honour ERIC WERGE HAMBER, Lieutenant-Governor of the Province, having entered the House, took his seat on the Throne, and was pleased to deliver the following gracious Speech:—

Mr. Speaker and Members of the Legislative Assembly:

I welcome you to the Fourth Session of the Eighteenth Parliament of British Columbia.

While business conditions have been showing marked improvement, tragic unrest and uncertainty prevails in many parts of the world.

During the year our Gracious Sovereign King Edward VIII. has been the messenger of good-will to various countries of Europe.

His Excellency Lord Tweedsmuir, Governor-General of Canada, visited our Province, much to the interest and pleasure of our people.

In connection with the Vancouver Jubilee, Right Honourable Sir Percy Vincent, Lord Mayor of London, visited our Province, and was most cordially welcomed by our citizens.

The year has been marked by the presence of many distinguished visitors and the tourist traffic generally has been the heaviest in the history of the Province.

In conjunction with the Dominion Government, my Government has been carrying out a considerable amount of necessary and desirable road construction. It is the aim of my Government to provide first-class road accommodation for the benefit of the industrialist, the settler, and the tourist as rapidly as circumstances will permit.

Extraordinary floods did a very considerable amount of damage in many portions of the Province and every effort was put forward to meet the situation caused thereby.

Difficulty was experienced in the construction of the Fraser River Bridge at New Westminster through the extraordinarily high water, but this has been overcome. Satisfactory progress is being made on the structure, and it is expected that the bridge will be open for traffic early next fall.

Continued advancement in the timber industry is indicated by the returns, the heaviest increase being with the United Kingdom. Prospects appear very encouraging for the future.

There is good reason to believe that increased activity will take place in the pulp and paper industry.

The advancement of the Young Men's Forestry Training Plan has been very gratifying. Young men participating are given a fair grounding in all branches of forestry work and steady employment has been found for a considerable number through this movement.

Measures are under way for the adjustment of boundaries of counties, mining divisions, land recording districts, assessment and collection districts, and land registration districts throughout the Province. This will very much simplify as well as lessen the cost of administration.

Definite progress has been made in the field of public health, especially with respect to the treatment and control of Tuberculosis and Venereal Disease. The problems of Juvenile Delinquency and Mental Hygiene have also been attacked.

My Government has, under legislative authority, made the necessary guarantee to enable the British Columbia Cancer Foundation to purchase a supply of radium.

Preliminary work relative to the organization of Health Insurance is nearing completion and it is expected that benefits under the Act will be available early in 1937.

During the past year two successful experiments involving a change in school administration were carried out—one in the Peace River Block, where fifty-six rural school districts were united under an Official Trustee, and one at Abbotsford, where two municipal school districts and the Village of Abbotsford were made a unit for school purposes and a Director of Education appointed. The change has already resulted in greater efficiency in the schools and much improvement in the school plant and equipment.

In September a new programme of studies came into use in all the elementary and junior high schools of the Province. This programme, which reflects the latest developments in the science of Education, has met with general satisfaction. The senior high school curriculum will undergo thorough revision during the ensuing year. The programme of Physical and Recreational Education for Youths Over School Age has met with great favour and will be extended this year.

The present year has been marked by a very satisfactory increase in quantity and quality of agricultural production in almost all branches of the industry. This increase, together with a firming of prices, is expected to result in the highest returns to our farmers since 1930.

Legislation recently enacted, having to do with employment and labour conditions, has been very beneficial and has resulted in increased employment.

Mining production continues to increase and the general world demand indicates continued activity.

The policy of joint construction of roads and trails to mining properties carried out by the Dominion Government and my Government during the year will be of much advantage to the industry.

Appeal to the Privy Council has been taken by my Government in respect of a number of measures of major importance enacted by the Dominion Parliament to determine the competence of the Dominion Parliament therein.

This Province is blessed with great variety and extent of natural resources, and it is gratifying that development and progress have been appreciable in every avenue of endeavour.

Concurrently with improved business conditions, revenues of the Province have also increased.

Notwithstanding general business revival, unemployment of large numbers of our people is still with us. It seems obvious that the problem can be met only by conjunctive measures over a period of years. It is the hope of my Government that these measures may be taken in co-operation and collaboration with Federal authority.

Measures will be submitted to you in aid of the municipalities.

Licence fees now paid by individual fishermen in respect of commercial fishing will be abolished.

The Public Accounts will be submitted and Estimates for the ensuing year will be laid before you.

You will be asked for additional authority to enable my Government to carry out a useful and necessary programme of public undertakings.

In leaving you, I pray that Divine Providence may guide you and bless the fruit of your labours.

His Honour the Lieutenant-Governor was then pleased to retire.

Prayers by His Excellency the Rt. Rev. *John Hugh MacDonald*, D.D., Bishop of Victoria.

Mr. Speaker reported that to prevent mistakes he had obtained a copy of His Honour's Speech.
